

Q and A for Ghost Dike Mitigation Project

Is there an engineer's estimate or a general cost range available on the Ghost Dike mitigation RFP solicitation?

Answer: We are not going to make the engineer's estimate available to bidding contractors.

Engineer's estimate - I know that this is an RFP, but figured I'd see if there's a range to give us an idea

Answer: The engineer's estimate is not available.

Private or Prevailing wages (if prevailing, what direction)? Would like to know what wage rates to enter for Pacific County

Answer: This is not a prevailing wage job.

Project location – I looked through the plan set and it looks like it's out in Kindred Island but want to confirm

Answer: Yes, it is located right by Kindred Island.

Project Plan Set request – May we all get a clean PDF version of the plan set that's formatted to 11x17? Many of the pages are difficult to read and I believe that the engineer would be able to provide this

Answer: I have attached the PDF version of the plan set to this email.

Permits – Are there any special permits that the contractors are responsible to provide for work in this area? If so, what are they?

Answer: The below link provides all the necessary information regarding permits for this project.

Is the engineer's estimate available?

Answer: The engineer's estimate is not available.

What is the in-water work window?

Answer: Permits require in-water work complete by September 30, 2021, unless an extension is granted.

What is the anticipated notice to proceed?

Answer: Tribe answer – We will grade within a week of close date.

What is the substantial date?

Answer: Substantial completion should be reached 5 days prior to in-water work window closure.

What is the final completion dates?

Answer: Work outside of waters (DEMOB, ETC) may continue after in-water work window.

Does prevailing wage apply? If so, can you specify the determination(s)?

Answer: This is not a prevailing wage job.
